Profile Summary

Computer Science undergraduate skilled in Java, Python, and Oracle SQL/PLSQL with hands-on experience in full-stack development using React, Node.js, and Flask. Strong foundation in Data Structures and Algorithms with active participation in competitive programming and open-source contributions. Experienced in building AI-based applications using LLMs, RAG, and LangChain.

Key Skills

- **Languages:** C, C++, Java, Python
- **Database:** Oracle SQL, PL/SQL
- **Backend:** Java, Python, Django, Flask
- **Frontend:** HTML, CSS, JavaScript
- **AI/ML:** Generative AI, LLMs, RAG, LangChain, HuggingFace
- **Tools:** GitHub, VS Code
- **Concepts:** Data Structures and Algorithms, OOP, DBMS, Statistics

Experience

Google BIG Code
- Qualified Round; ranked among top 15,000 participants globally.

GSSoC'26 – Contributor
- Contributing to open source projects and collaborating with developers.

EcWoC'26 – Contributor
- Worked on multiple open source projects.

Elite Hack 1.0 – Finalist
- Built **UniIssueHub**, a campus complaint system with email updates. complaint-system-wine.vercel.app

Projects

UniIssueHub (React, Node.js, MongoDB, Express, Nodemailer) Live
- Built a full-stack complaint tracking system enabling students to raise, track, and resolve campus issues in real time.
- Implemented priority-based categorization and automated email notifications using Nodemailer for status updates.
- Designed a responsive UI with React and integrated RESTful APIs with Node.js and Express for seamless data flow.

AI Tutor (Python, LLM, Streamlit, HuggingFace) Live
- Developed an AI-powered tutor that delivers personalized learning experiences based on user queries and skill level.
- Leveraged large language models to generate context-aware explanations, code examples, and practice problems.
- Deployed on HuggingFace Spaces with a clean Streamlit interface for an interactive and accessible user experience.

DeltaGeo (Python, FastAPI, Siamese U-Net, EDSR, Remote Sensing) Live
- Built an ML/DL-based platform to detect geographical changes using satellite images from different years.
- Used deep learning models such as Siamese U-Net for change detection and EDSR for improving image resolution.
- Developed a FastAPI backend and interactive dashboard to process images and visualize detected changes.

Education

B.Tech – Computer Science Engineering (IEP Oracle) May 2024 – April 2028
Parul Institute of Engineering and Technology, Vadodara, Gujarat
CGPA: 8.97

Class XII & X – CBSE Board
Shanti Memorial Public School, Haridwar, Uttarakhand
XII (2024): 90.2% — X (2022): 93.67%

Certifications

Oracle Certifications

- Oracle SQL Specialist Apr 8, 2025
- Oracle PL/SQL Specialist Jul 7, 2025
- Generative AI Professional Oct 22, 2025
- Java Foundations Associate Dec 23, 2025
- Java SE 17 Developer Jul 29, 2026

Pearson Certifications

- HTML & CSS Feb 8, 2025
- JavaScript Apr 7, 2025

IBM Certifications

- Python Dec 17, 2025
- Statistics 101 Mar 30, 2026
